XII. Innovations

I. Number of operating small enterprises and microfirms by type of economic activity *(as of 01.01.2025)*

As of 01.01.2025, the total number of operating small enterprises and microfirms amounted to 358.1 thousand units.

The largest number of them falls on trade 136.4 thousand units (38.1 %), industry 54.7 thousand units (15.3 %), agriculture, forestry and fisheries 30.4 thousand units (8.5 %), construction 26.9 thousand units (7.5 %), accommodation and food 25.9 thousand units (7.2 %), transportation and storage 15.5 thousand units (4.3 %).

Share of operating small enterprises and microfirms by type of economic activity (as of 01.01. 2025)

Main indicators of labor of small enterprises and microfirms

In 2024, the number of employees in Uzbekistan who have employment records used to calculate the average salary was 1 302 709 people. For reference: in 2023, the number of such employees was 1 204 008 people.

The largest number of employees with employment records used to calculate average wages is observed in the following regions: Tashkent city (401 314 people), Tashkent region (143 278 people), Samarkand (104 066 people), Fergana (103 615 people), Andijan (74 386 people) and Namangan (73 365 people).

In 2024, the number of women in Uzbekistan with employment records used to calculate average wages was 329 747. For reference: in 2023, the number of such workers was 308 774.

The largest number of small enterprises and micro-firms headed by women are located in the following regions: Tashkent city (112 869 people), Tashkent region (42 084 people), Samarkand (24 310 people), Fergana (24 264 people), Andijan (19 766 people) and Namangan (17 637 people).

In 2024, the number of workers with work books by type of economic activity shows the largest number in the following sectors: industry (332 830 people), trade (321 744 people), construction (200 989 people), other services (149 869 people), accommodation and food services (96 449 people) and transport and storage (65 691 people).

In 2024, the volume of income accrued to individuals with employment records as wages amounted to 41 367.7 billion soums. For reference: in 2023, this figure was 30 690.0 billion soums.

The largest volume of income accrued to individuals with employment records was recorded in the following regions: Tashkent city (21 139.0 billion soums), Tashkent region (3 757.2 billion soums), Fergana (2 265.0 billion soums), Samarkand (2 264.0 billion soums), Andijan (1 558.4 billion soums), Bukhara (1 552.2 billion soums) and Namangan (1 546.3 billion soums).

In Uzbekistan, the volume of income accrued to women with employment records in 2024 amounted to 10 350.8 billion soums. For reference: in 2023, the volume of these revenues amounted to 6 878.7 billion soums.

The largest volume of income accrued to women with work books was registered in the following regions: Tashkent city (6 046.7 billion soums), Tashkent region (969.9 billion soums), Fergana (489.3 billion soums), Samarkand (467.7 billion soums), Andijan (369.1 billion soums), Bukhara (347.1 billion soums) and Namangan (330.0 billion soums).

In 2024, by type of economic activity, the volume of income accrued to individuals with employment records was highest in the following sectors: industry (9 575.5 billion soums), trade (8 044.3 billion soums), other types of services. (7 993.2 billion soums), construction (5 905.3 billion soums), information and communication (3 465.4 billion soums) and in the accommodation and food services sector (2 135.4 billion soums).

II. Number of new jobs were created by small enterprises and microfirms

In 2024, 471 531 jobs were created in small enterprises and microfirms.

The largest number of newly created jobs by region were in Tashkent city (146 925), Tashkent (46 762), Samarkand (38 152), Surkhandarya (36 298), Fergana (31 288), Andijan (25 511), and Namangan (24 677) regions.

In 2024, the number of small businesses and microfirms were headed by women in the Republic of Uzbekistan amounted to 43 860 units. This is 2 611 units more than in 2023. In 2024, the share of small enterprises and microfirms were headed by women in the number of operating small enterprises and microfirms amounted to 12.2 %.

The largest number of small businesses and microfirms were headed by women by region were in Tashkent city – 12 814 units (29.2 %), Tashkent 5 598 units (12.8 %), Samarkand 3 905 units (8.9 %) of the region, the Republic of Karakalpakstan 2 866 units (6.5 %) and Khorezm region – 2 673 units. (6.1 %) region.

Number of small enterprises and microfirms were headed by women by region (in units)
